Slim, uncomplicated, versatile seeks ...

... professional application. LINEARlight-DRAGON® Slim – the new easy-install LED batten luminaire with Plug&Play.

SEE THE WORLD IN A NEW LIGHT

Technical highlights in detail:

- Slim high-intensity LED module with 6 high-flux OSRAM Golden DRAGON® Plus LEDs
- Up to 5 modules can be connected in series
- Plug&Play: direct contact with plug system
- Simple versatile installation with stable brackets (included)
- Aluminum housing for optimum heat removal
- Dimmable by pulse width modulation (PWM)
- Life of up to 50,000 hours
- Various accessories for different applications and simple connection

Main applications:

The OSRAM LINEARlight-DRAGON® Slim LED batten luminaire is ideal for close-up lighting. It is therefore tailor-made for professional illumination of display cabinets, shelving and similar furniture. It is also excellent for providing light behind small coving.

A perfect partnership – LINEARlight-DRAGON® Slim and OPTOTRONIC®.

Perfect partners not only get on well together, they bring out the best in each other. OPTOTRONIC® control gear and controllers from OSRAM are therefore the right choice for the LINEARlight-DRAGON® Slim LED batten luminaire. This combination is more than the sum of its parts – it is a sophisticated lighting management system from one and the same supplier. This means that each application benefits from optimum functionality, excellent reliability and maximum efficiency.

OPTOTRONIC® OTi DALI 75 – intelligent lighting management:

- Separate 75W control gear for 24 V LED modules
- Four 24 V outputs, dimmable by pulse width modulation (PWM)
- Fully selectable distribution of total output to individual channels
- DIP switches for activating 1 to 4 channels or DALI® addresses
- Individually addressable output channels (DALI®)
- Control of all channels possible with Touch DIM® function (brightness regulation and storage of the start value); daylight-dependent and presence-dependent control also possible in conjunction with Touch DIM® Sensor
- Flexible configuration of the output channels for a wide range of applications, such as monochromatic lighting, RGB+W and tunable white applications
- Fully compatible with OSRAM DALI® controllers, such as DALI® BASIC
- High efficiency and low standby losses

The perfect solution whatever the application.

In addition to the OPTOTRONIC® OTi DALI 75 control gear and controller, the OPTOTRONIC® 20, OPTOTRONIC® 75 and OPTOTRONIC® OT EASY 60 units from OSRAM are also ideal for operating the LINEARlight-DRAGON® Slim LED batten luminaire. So whatever the application you can enjoy perfect lighting management.
